SUMMARY

Senior Cloud Infrastructure and Software Engineer with 12+ years building and running large-scale systems. Strong history of leading enterprise cloud migrations, automating painful infrastructure, and shipping stable, cost-efficient platforms. Recently expanded into full-stack development with modern cloud-native projects while staying grounded in serious infrastructure fundamentals.

WORK EXPERIENCE

Rezify - Investor & Technical Advisor | May 2025 – Present (Remote)

Advising on cloud architecture and scaling strategies for an AI powered internship-search platform; guided legacy migrations to Google Workspace and help drive initiatives which increased user acquisition ~500%

VigiLanz/Inovalon - Sr. Infrastructure Engineer | Dec 2021 - June 2025 (Remote)

Owned cloud and infrastructure operations for healthcare-scale AI/ML workloads. Led architecture design, compliance alignment, and migrations while maintaining 99.9% up-time across critical systems. Built scalable systems that optimized cost and performance and implemented robust DR planning.

Tierpoint - Advanced Enterprise Services Engineer | Jan 2019 - Dec 2021 (Remote)

Pioneered AES unit delivering enterprise virtualization, automation, and scalable cloud solutions for our largest and most-complex clients. Automated life-cycle management and DR tests to reduce RTO/RPO by 40%.

Cosentry/Tierpoint - Cloud Services Engineer | Dec 2016 - Jan 2019 (Remote)

Handled escalations and complex cloud troubleshooting. Promoted rapidly and contributed to tooling alignment during acquisition.

Xiolink/Cosentry - EOC Technician | Dec 2014 - Dec 2016 (Remote)

Launched career in 24/7 operations, leading monitoring, incident response, and documentation. Received multiple client commendations.
